

Questionnaire Climate Change Performance Index 2017

September 2016

Dear Reader,

Thank you very much for taking 20-30 minutes of your time to fill in this questionnaire! Please type your answers directly in the Word file, save it, and return it to Franziska Marten (marten@germanwatch.org) or Jan Burck (burck@germanwatch.org).

Thank you very much in advance!

Jan and Franziska

Your name:

Your organisation:

Representing which country:

National climate policy

1. Electricity and Heat Production

a) Does your country have any national policies and/or measures to promote renewable energies, to increase energy efficiency or for other CO₂ emission reductions in the electricity and heat sector?

Yes No

b) If yes, please list the most important national policies and measures (max three) for the reduction of CO₂ in the energy sector.

1. policy/measure:

2. policy/measure:

3. policy/measure:

c) Considering current emission reduction (or limitation) requirements on one hand, and the potential to reduce emissions on the other, how do you rate your country's current national climate policy in the energy sector?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

2. Manufacturing Industries and Construction

a) Does your country have any national policies and/or measures to promote renewable energies, to increase energy efficiency or for other CO₂ emission reductions in the manufacturing and construction sector?

Yes No

b) If yes, please list the most important national policies and measures (max. three) for the reduction of CO₂ in the manufacturing and construction sector.

1. policy/measure:

2. policy/measure:

3. policy/measure:

c) Considering current emission reduction (or limitation) requirements on one hand and the potential to reduce emissions on the other, how do you rate your country's current national climate policy in the manufacturing and construction sector?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

3. Transport

a) Does your country have any national policies and/or measures to promote renewable energies, to increase energy efficiency or for other CO₂ emission reductions in the transport sector?

Yes No

b) If yes, please list the most important national policies and measures (max. three) for the reduction of CO₂ in the transport sector.

1. policy/measure:

2. policy/measure:

3. policy/measure:

c) Considering its current emission reduction (or limitation) requirements on the one side, and its potential to reduce emissions on the other, how do you rate the current national climate policy of your country in the transport sector?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

4. Residential

a) Does your country have any national policies and/or measures to promote renewable energies, to increase energy efficiency or for other CO₂ emission reductions in the residential sector?

Yes No

b) If yes, please list the most important national policies and measures (max. three) for CO₂ reduction in the residential sector.

1. policy/measure:

2. policy/measure:

3. policy/measure:

c) Considering its current emission reduction (or limitation) requirements on the one side, and its potential to reduce emissions on the other, how do you rate the current national climate policy of your country in the residential sector?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

5. Forest and/or peat lands

a) Does your country have any national policies and/or measures for the reduction of deforestation and forest degradation and/or the reduction of peat land emissions?

Yes No

b) If yes, please list the most important national policies and measures (max two) for the reduction of deforestation and forest degradation.

1. policy/measure:

2. policy/measure:

3. policy/measure:

c) Does your country have any national policies and/or measures for supporting and protecting forest ecosystem biodiversity?

Yes No

d) If yes, please list the most important national policies and measures (max two) for supporting and protecting forest ecosystem biodiversity.

1. policy/measure:

2. policy/measure:

e) Considering its current emission reduction (or limitation) requirements on the one side, and its potential to reduce emissions on the other, how do you rate the current national climate policy of your country in the forest sector?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

f) Considering its current emission reduction (or limitation) requirements on the one side, and its potential to reduce emissions on the other, how do you rate the current national climate policy of your country in the peat land sector?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

Evaluation of (I)NDC

a) How would you evaluate the ambition level of your country's INDC considering the mitigation capacity of your country?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

b) How would you evaluate the 2°C-compatibility of your country's (I)NDC?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

c) How would you evaluate the progress of your country to reach the mitigation targets presented in its INDC?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:

International climate policy

a) How would you rate the international climate diplomacy of your government, considering its performance at recent UNFCCC conferences?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

b) How would you rate the international climate diplomacy of your government, considering its performance at other recent international conferences or multilateral agreements (e.g. G20)?

(1= very good, 2= good, 3= neutral, 4= poor, 5= very poor)

Rate: 1 2 3 4 5

Additional comments:
